## United States Treasury Notes.

50s altered from 2s. The figures in the upper corners are covered by pasting 50 over them, and the "two" around the edges is carefully erased by painting it over in green. If the notes are examined closely the fraud can be readily detected, but as people, when handling "greenbacks," generally notice the denominations only, it is probable, without great care is exercised, that the altered bills will gain a pretty good circulation. We give on page 5 a full description of all the United States Treasury notes; also an article to detect all alterations, this should be cut out and pasted up for reference. As no doubt the Treasury notes will be altered from time to time for years to come.

## FINANCIAL NEWS.

**The National Bank Currency.**—None of the designs for the new Treasury notes were thought worth the premiums offered, as they were combinations of engravings already used for bank notes, with slight alterations. The designs of Butler & Carpenter, of Philadelphia, were far superior, however, to those offered by the great bank note companies of New York, and they will doubtless be employed in getting up the new currency. Secretary Chase intends to have the vignettes on the new notes carefully reduced copies of the large historical paintings in the rotunda of the Capitol, which are now being photographed by a first-class artist. It is proposed that these National Banks, as they are organized, one after another, be designated by numbers, thus: The First National Bank of Pennsylvania, the Second National Bank of Pennsylvania, etc., and the organizations in other places to follow up the same style.

This will secure great uniformity in the appearance of the circulating notes of all the National Banks wherever located. The city or town being in prominent letters, will sufficiently denote the locality of the institution, while in all other respects all the National Bank currency will be of uniform appearance. We commend this course, and hope to see it adopted; then almost every person will become an "expert" in detecting counterfeit and altered notes; whereas now, with five thousand varieties of paper money, not one in five thousand is a judge of its genuineness.

**Specie-paying Banks.**—The following are the only Banks in the country now paying specie:—

1. Southwark Bank, Philadelphia.
2. Bank of Pittsburgh, Pittsburgh.
3. Bank of Beaver County, Penn.
4. Bank of Fayette County, Penn.
5. Monongahela Bank, Penn.
6. Exchange Bank, St. Louis.
7. Davenport Branch State Bank, Iowa.

**Ready.**—The Bank of North America has notified the Secretary of the Treasury that the institution is prepared to deposit \$750,000 of Government stock, under the provisions of Mr. Chase's Bank Act, as soon as the circulating notes are prepared.

## FINANCIAL NEWS.

**Counterfeit Postal Currency.**—In answer to numerous inquiries on the possibility of detecting the counterfeit from the genuine postal currency, we can inform our readers that there are no means of discriminating between them. The texture of the paper on which the notes are printed affords no criterion whatever, and the small monogram, A B C, on some denominations, is only a trade-mark of the American Bank Note Company; the absence of it is no proof of an illegitimate bill. Some of the notes were printed by the National Bank Note Company, and others by the firm previously referred to. The only way of detecting a fraudulent note is by the coarseness of its execution; this can only be done when the bill is new, and by a person who is a judge of such work. When the note is dirty and crumpled up, no one, not even an expert, can safely affirm as to the good character of any particular note. This is poor encouragement, but it is all we are able to give.

**Export of Gold.**—The following are the amounts of Gold exported for the last twelve years. The amount shipped last week was \$185,344, making the large total of \$16,301,688 since the 1st January. This is unprecedented as is seen by the following table of exports in the corresponding periods of past years:

1851.....	\$7,020,315
1852.....	2,474,690
1853.....	3,891,533
1854.....	4,530,467
1855.....	3,802,573
1856.....	5,505,400
1857.....	9,330,736
1858.....	8,803,619
1859.....	4,212,702
1860.....	1,480,522
1861.....	8,885,396
1862.....	15,301,688

This is over 60 per cent. greater than the highest exportation of any previous year—that of 1858.

**New Postage Orders.**—The Post Office department has just issued an order to postmasters, directing them, from and after the 1st of May, to collect in specie, or its equivalent, all postages due on unpaid letters from foreign countries in the mails dispatched to this country from Great Britain, Ireland, France, Prussia, Hamburg, Bremen or Belgium. The order at present applies only to those mails. On outgoing mails the existing regulations remain unchanged. Postages collected on foreign letters must be accounted for to the foreign governments in specie or its equivalent, and hence this order by the authorization of Congress.

**The Boston Commercial Bulletin**, a well-known weekly journal, edited and published by CURTIS GUILD, Esq., is now giving its readers a series of sketches, which ought to recommend it to many who have nothing to do with trade, commerce or manufactures. They are called "Behind the Scenes at the Stock Exchange, or Revelations of a Stock Broker." These sketches are very fairly as well as very well written, and we think that, with a little revision and probably some additions, they would make a volume of no ordinary local interest.

**Altered Treasury Notes.**—The Counterfeiters are flooding the country with altered Treasury notes, and it behooves our friends to be careful. On the fifth page of our Detector we print a full and elaborate description of all the notes issued by the Government up to the present time. Any Treasury note bearing signs of having been tampered with, should be compared with the genuine descriptions mentioned above; and if the bill has really been altered, this method will instantly expose the fraud. No other test is needed.

**Comfort!**—It is a pleasure to wear an easy fitting shirt, and one of the best places in Philadelphia to get them is at SMITH & JACOBS, No. 1226 Chestnut Street. S. & B. make shirts of New York Mills muslin with fine Irish Linen Bosoms, which they warrant not to shrink by washing, so that your shirt is always a perfect fit.

**Treasury Deposits.**—Our country readers, if they wish to deposit money with the Assistant Treasurer at the United States Mint, as a temporary loan at 5 per cent interest, can do so by obtaining a draft on this city, which will be easily obtained from a bank in their neighborhood.

**Confections.**—We would remind strangers now in the city that if they wish to procure for their families or friends some of the choicest manufactures in fine confections known to the art, they should note the fact that Mr. STEPHEN F. WHITMAN, No. 1210 Market Street, has a full supply of splendid varieties. His preparations being manipulated to the highest degree of perfection, are always sought after by those who wish to procure a rich, delicious, and, in all respects, superior confection.

**Ice.**—The short supply of ice this year, will make the rates high, so that every one will have to be as saving as possible of their ice, now we would advise all to buy a good **Ice Pitcher**, one such as our friends CARTERS & FERNES make, at No. 27 South Eighth Street, Phila.

## EXPLANATIONS OF MARKS IN THIS LIST.

The figure on the line with the Bank expresses the Discount on its notes.

The descriptions under each Bank are of Counterfeits or Alterations on the Bank.

The letter (F.) on the line with the Bank shows it to be a Free Bank, with notes secured by a deposit.

(S.) Bank organized under the Safety Fund Bank Law. These Banks have no security deposited for the redemption of their notes.

The letter (D.) means that we consider the Bank Doubtful.

A dash (—) that it is unsaleable.

An Index (R), means that we know too little of the Bank to quote it.

A star (\*) that the quotation is not reliable—doubtful whether we buy at all.

The word (new) means we know nothing of the bank, and would say refuse until quoted.

The Quotations or rates of Discount are corrected by Drexel & Co., the well known Bankers and Brokers of this city, up to this day (April 25th) and at which rates they will purchase in sums of \$100 and upwards. A small advance is charged for smaller sums.
